

INCREASE THE CHANCES OF YOUR PROJECT PROPOSAL

Integrate FSRM as Dissemination Specialist in your Consortium!

The success of your project proposal, besides the technical excellence, also depends on a **convincing strategy to maximise its impact**. The “Impact” section counts 1/3 of the evaluation. Dissemination, communication and exploitation are important parts of the Impact section and should be treated by a specialist.

FSRM has 15 years of experience as dissemination partner in EU funded research projects and can help you.

HOW DOES IT WORK?

STEP 1 PROJECT PROPOSAL

-> You integrate FSRM as a partner in your consortium:

- Our specialists write the chapter on Dissemination & Communication

STEP 2 PROJECT ACCEPTED

-> Our work in the project:

- We lead the WP Dissemination, Communication, Exploitation of Results
- We organize all Dissemination & Communication activities in close collaboration with all partners
- We set up the website and social media presence, create the logo, flyers and newsletters, coordinate video productions, write press releases, organize booths and workshops, ...

WHAT CAN YOU EXPECT FROM US?

- A collaboration with a competent partner who knows what you are talking about: our skilled team includes engineers and communication specialists.
- A long experience as WP leader of Dissemination & Communication in EU funded research projects.
- Expertise, a specific methodology and efficient tools to plan and organize project tailored dissemination and communication activities.

WHAT DOES IT COST?

- As project partner, our activities are 100% funded by the EC.
- As a subcontractor, count about 5% of the project's total budget.
